Recently, she traveled with a group of friends to South Africa to hunt with "African Wild Safaris".

**JACK SAMP**

jacksonsamp8705@gmail.com  
Larami, WYOMING

Jack is an avid outdoorsman who has been hunting since he was 10 years old but going along with my dad and uncle ever since I could walk. Over the years, I have had many experiences hunting different big game animals throughout my home state of Wyoming: elk, mule deer, pronghorn, and moose. I also have traveled over state lines to Kansas and Nebraska to chase whitetail deer and turkeys. Waterfowl hunting and fishing are other passions of mine. I also enjoy performing agricultural-related work.

Hunting in South Africa was a completely new experience for me, and I was hooked. The adrenalin rush never gets old, so you want to go back and chase that adrenalin again and again.

**SETH HARRIS**

+1 704 574 4739  
seth@energyoneamerica.com  
Mount Pleasant, SOUTH CAROLINA

Seth was raised in rural Pennsylvania, shooting nuisance animals on the family farm at a very early age. Hunting big game with his father until old enough to secure his own license, he has appreciated hunting bear, deer, and turkey in the snow-covered Northeastern US.

Now living in the low country of South Carolina, he continues to enjoy big game with a passion for long range, and small game at distance for the increased marksmanship challenges.

Adding the exhilaration of safaris in South Africa has only unlocked a deeper passion for the hunt, experiences, terrain, and species that Africa has to offer.

**CAMERON FERGUSON**

+1 864 640 7299  
ferguson.cameron25@gmail.com  
Summerville, SOUTH CAROLINA

Cameron started hunting for doves around the age of 5. I was as the "bird dog" for my dad and brothers. I would go fetch injures doves for them with a BB gun.

My favorite species is a tough one. I'd like to think an elk because it's my number one dream animal and something I hope to do this coming year. Buffalo hunting with the African Wild Safari crew last time in Africa is the most fun I've ever had and I never fired a gun as it was 6 friends with one mission, a lot of adrenaline, and a lot of laughs. African game is another level of adrenaline and challenge that is hard to beat. Rifle is my go to big game. I respect bow hunters, their patience, and the adrenaline from it, but rifles are just too affective long range to not enjoy.

**ANGIE KOKES**

+1 308 750 8660  
akokes75@gmail.com  
North Loop, NEBRASKA

Angie was raised in Central Nebraska. She grew up hunting and shot her first shotgun at 3 years old. She started whitetail hunting on her own at 15. She loves hunting so much she switched to a bow at 22, and then for more of a challenge, 8 years ago she picked up a spear. She has since taken 20 big game animals with a spear, in many different countries. African animals are extremely wary, and they remind her of hunting whitetails at home.

It's very difficult to explain spear hunting to an outfitter and guide. African Wild Safaris have been so amazing to work with. They have literally moved heaven and earth, to help make many spear hunts successful.

# SHOOTING RANGE, HIDES & AIRSTRIP

At our 1000 yard shooting range, hunters can prepare and get their guns ready for the hunt. We have well situated elevated- and ground blinds near waterholes, that will optimize the bowhunters' chance to bag great trophies.

There are also blinds specifically positioned to give the long distance shooter the opportunity to put his skills and equipment to the test. African Wild Safaris also has an airstrip of 1300 yards to accommodate private charters.

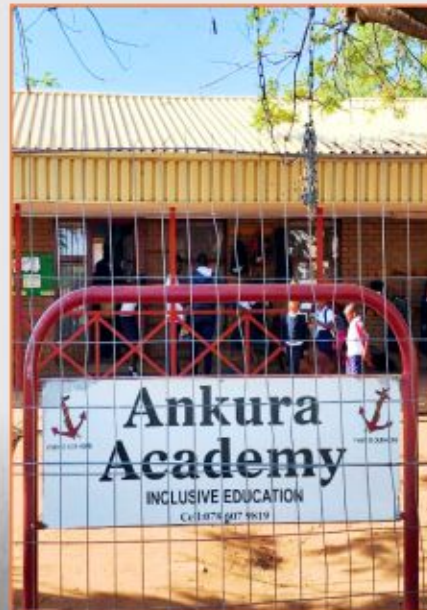

# CONSERVATION & TRAINING

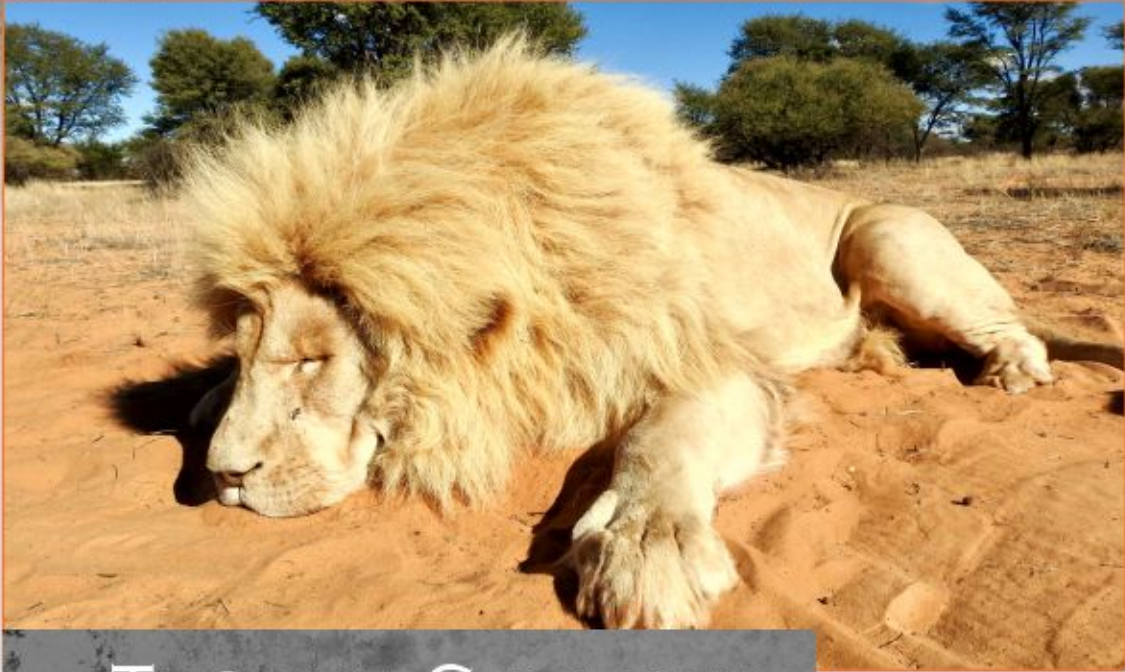

## LOCAL COMMUNITY SCHOOLS

Several of our hunting clients who fly into Musina, has supported the Ankura Academy next to the airstrip. The children mostly enjoy receiving gift packs with stationary. In the photo below Ambassador John Martin Eubanks and Jordan Baker visited the school in the old building (2021). Upon our recent visit with Patty Willis (2024), they proudly showed us their new upgraded school building. The Ankura Academy offers Inclusive Education and receives no support from the local Government.

We also pride ourselves in supporting the local community and do regular donations of meat in the villages. Tourist hunting provides a valuable source of protein in poor rural areas, where they ordinarily have very little meat or other source of protein.

# THE SUPER MCNAB

## THE MCNAB

The McNab is a traditional hunting challenge that involves shooting a buck, a bird and catching a fish ..... in the same 24-hour period.

It is considered to be the ultimate test of a sportsman's abilities as it tests him in all three facets of hunting, wing shooting, and fishing.

The challenge dates back many centuries and was designed to be completed between Sunrise and Sunset of the same day.

## SUPER MCNAB

We have redefined the old Scottish tradition and are presenting to you the SUPER McNAB ..... where the hunter should hunt a Buffalo Bull, an Ostrich and a Nile Crocodile ..... within the period Sunrise to Sunset.

This amazing Challenge was accepted and honourably completed by Ambassador Cameron Ferguson.

It enticed the rest of his 2024 hunting group so much, that Chuck Beery also attempted and completed it.
